DXpedition News

Kenya - 5Z Chuck Taylor KC7UU returns to Africa for a month beginning in mid-Sept. Chuck left Nigeria after contracting a serious case of malaria, but he's now healthy enough to knock off a few CW QSOs during his travels. (He doesn't know how to use a microphone.) Watch for Chuck on 14025 from Kenya Sept. 14-25, **Tanzania 5H** Sept. 26-29, and **Uganda 5X** (probably 5X5GK) the first week of Oct. He may also operate from a Middle Eastern country the following week, before settling in Cyprus by mid-October, where he joins Mike 5B4TI. QSL address still to be determined.

Chuck Taylor KC7UU (second from left) discusses his African travels with (from left) 1987 Visalia DX Convention Co-Chairmen (and VP5X DXpeditioners) Lyle Meek WW6F and Len Geraldi K6ANP, and Redwood Empire DX Association President Doug Bender WW6D.

Pacific Odyssey

Pekka Kolehmainen OH1RY will swing through four Pacific islands this fall. His itinerary starts at **Fiji 3D2** Oct. 19-21, then on to **Tuvalu T2** Oct. 22-28, including CQWW SSB. QSL to Box 29, SF-21531 Paimio, Finland.

HC5KA's trip to the **Galapagos HC8** has been pushed back a week, to Oct. 4-11.

CT3 - Madeira HB9CRV and HB9DFX will operate /CT3 Sept. 6-13, on 3505, 7005, 14025, and 21025, with WARC bands on request. QSL home calls. Thanks DXNL.

Propagation Watch

August 28-29 and again Sept. 2-3 are the best chances for good 20-meter propagation in the next two weeks, with very low absorption expected.

Meanwhile the one-year-ahead prediction for sunspots has that number **declining** to zero by next April, from counts averaging in the teens this past year. Ugh! Maybe their predictions will be wrong! Loyal DXers deserved more spots!

Bandpass Highlights

- **XU1SS** provided more reports than any other station, all on 14180 at 12-1300Z.
- West coast stations worked **8Q7CH** on 7001 13-1400Z.
- **HSØA** was on in the SEANET SSB contest Aug. 16-17.
- **BY6LC** continues to appear at 11-1400Z at 7005.
- **VQ9GB** has a fine 40-meter CW signal at 12-1300Z, and also hangs out around 14200 or 14155 at 15-1600Z.
- **TU2JJ** on RTTY likes 14090 19-2100Z.
- **FKØ25AT** can be found on 20 CW around 0300Z.
- **HC8/HC1MD** made plenty of QSOs on 20 SSB.
- **SP5EXA/JW** has been very active on 20 CW, especially around 1400Z.
- **TY9ER** appeared on 40 CW on Aug. 16. Probably Benin Slim.

QSL Info Received

- For OH2BAM (I349), **XW8DK** in 1971 was W6AJW (1986 CB address: Charles Farr, 1018 East Morren St., Lancaster CA 93515.) QSLs were handled by WA6NFC, now WJ6O, T.A.Farr, 640 Northside Ct., Turlock CA 95380. TNX K6JB. **XW8ET** was Shu, Box 826, Vientiane, (from log info at the time.) Probably not much good today. Thanks W4VQ.
- The news is not so good for KFØH and **XV5DA**. "Never kept a log," reports K7ABV. Try Nov. 1974 QST, or W7PHO for more information.
- Dave W2CC reports that WA1HAA (for **SY1MA**) is now K1SE. Dave also has a copy of the "reverse listing" callbook, for anyone else trying to locate long-lost QSLs. Thanks, Dave.

QSL Help Wanted

- **MP4BIA** in May, 1970 for W3TVB.
- **MP4BJP** in April, 1973 for N9NS (WB4WPP does not respond.)
- **CR9Z** in Dec., 1982 and **ZD7ZM** in March, 1981 for KØDEQ.

In these days of slim sunspots, TDXB readers are confirming more new countries by researching old log books than by making contacts on the air. While chasing down QSLs for contacts made years ago is a time-consuming and frustrating activity, it may represent a DXer's best chance at confirming a rare one. TDXB will continue to assist whenever possible. And special thanks to the many QSL experts who have searched their logs and card files to help their fellow hams!

CONTESTS

Reserve Your Island - Part 3

- Paul Young K1XM and his wife Charlotte KQ1F will return to the **Galapagos HC8** for CQWW CW. They are looking for a couple non-smoking CW ops to join their multi-single DXpedition and natural history trip.
- N1GL is returning to **P43 Aruba** for CQWW SSB. By that time, the DXAC may have voted on New One status for Aruba. Bill scored second in last year's SSB Test.
- K7CU will operate from **PJ8 St. Martin** for CQWW SSB, with about a week of CW operation before and after the contest. QSL home call.
- Jim Rafferty N6RJ is returning to **ZF2 Grand Cayman** for the Phone CQWW.
- **T2 Tuvalu** will be on for CQWW SSB, thanks to OH1RY (see also Page 1).
- **5W1 Western Samoa** will see action in CQWW SSB as KB1CM and WB5VZL return after their fine WPX trip.
- Three California hams plan to invade **Barbados 8P9** in November for CQWW CW. 8P9AK (AK6T), 8P9AG (K6ZM), and 8P9AJ (K4UVT/6) will operate both SSB and CW one week before and two weeks after the CW test, on 160-10, including 30 meters.
- Rumors suggest that **HC8** is also booked for SSB, as is **HKØ**, but TDXB has not received direct info. Anyone else going hither or yon for CQWW?
